BMFT LABS / CREATIVE MUSIC TECHNOLOGY

Composer Ear Training

For universities, conservatories & music schools

Connect listening with composing.

Bring structured chord, interval, scale and mode practice into your teaching studio. Explore musical relationships through software instruments, then use recognition tests to guide further practice.

BUILT FOR TEACHING & PRACTICE

Teach: Demonstrate musical examples in class.
Practice: Explore organized exercises at a suitable level.
Review: Use recognition tests and answer review to identify material to revisit.

EDUCATIONAL PURCHASING

One-time purchase. No subscription.
Eligible institutions can receive **50% off 20 or more Mac licenses** through Apple School Manager. Confirm current pricing and eligibility at purchase. Mac and iOS editions are sold separately.

PLAN YOUR CLASSROOM SETUP

Mac edition: compatible Apple-silicon Mac, Logic Pro and a software instrument required. iPhone/iPad edition: compatible AUv3 MIDI host and instrument required. Hosts and third-party instruments are separate products. Ask us about device compatibility and lab deployment before purchasing.

Arrange a faculty demonstration

Online demonstrations and on-site workshops by arrangement.
